

ELECTRIC HEATERS ETHP SERIES

ETHP-150

FEATURES:

- **Digital Temperature Control**
 - State-of-the-art components provide precise measurement of actual space and discharge temperatures
 - Locking feature prevents unauthorized temperature adjustments
- **Proof-of-Air-Flow Control**
 - Senses obstructed air intake and prevents coil from energizing
- **Built-in 200-Amp Circuit Breaker**
 - Protects unit and other customer equipment
- **Solid-State Contactors**
 - Long life - no moving parts to wear out
- **Motor Overload Protection**
 - Protects circuitry from power surges

* Some models allow fewer coils to be energized, lowering power requirements and output Kw/hr.

* Each unit is equipped with a control panel and circuit breaker. Other options are available.
